THE DUTCH WATERSLIDE EXPERIENCE

3D Projection on Water screen

Beautiful 3D projections of images and films will be projected onto a water screen which is included in the delivery. Think of it you are sliding straight into the mouth of a dinosaur or sliding into a colorful world of flowers ...

We advise to place the screen at the start of the slide so you can watch the images while waiting on your turn, the excitement for the ride starts building up here ...

In the stand alone mode the images will run in a loop, if chosen for the optional Interactive Slide control then themes can be selected at the entrance of the slide.

Themes are suited for all ages and vary from dinosaurs to funny cartoons, if chosen for the optional content management, themes can be changed every month by iSlide. Also sound can be added with the optional Sound Module.
