

# (FX) SAHARA BREASE

**SLIDE**  
THE DUTCH WATERSLIDE EXPERIENCE

Besides sight and sound also the feeling senses can be stimulated, with the Sahara Brease wind will be blown into the slide which gives a strange experience when you slide through it. When this effect will be made in combination with a water spray before the wind it will feel like you slide through a rain shower with hard wind. ....

When an interactive slide controller will be connected themes can be chosen at the start of the slide.

## Effects

SAHARA BREASE
