

(FX) SOUND MODULE

In the Slide 2 speakers will be divided over the length of the slide. The speakers are built into special waterslide enclosures for best sound and best looks on the slide, the enclosures will be painted in the color of the slide. The speakers are especially prepared for the hush chloride environment and are built to last.

A outdoor unit will contain an amplifier placed and a digital sound module for the sounds. With this different themes can be supported with different sounds per theme. With the optional Online Content Management package the sounds can be monthly changed over the internet.
